KOSON Recovery Sheet

TO RECOVER YOUR KOSON WALLET DO THIS STEPS:

1. **Download the latest release** from here: <https://github.com/kosonproject/koson/releases>
2. Unzip/**extract files**.
3. Open **kosond.exe** and wait until is synchronized. You will be notified with several green "**SYNCHRONIZED OK**" messages.
4. **Navigate in Command Prompt/Terminal to your koson binaries/wallet folder** (from step 1&2) and:
5. Type: "**koson-wallet-cli.exe --restore-deterministic-wallet**" and press "**Enter**"
6. Choose a wallet name (name it as you wish – other name than your previous wallet)
7. Confirm your wallet by pressing "**Y**" and "**Enter**"
8. **Type your mnemonic seed** and press "**Enter**"
9. Restore from specific blockchain height (optional, default 0) or simply press "**Enter**"
10. **Enter a STRONG password** for your wallet and press "**Enter**". **Type again your password** and press "**Enter**"

Your wallet will start to refresh

Done

To check your balance type "**balance**" and press "**Enter**"
